## **REASONS FOR ALLOWANCE**

### ***Allowable Subject Matter***

Claims 51-59, 64 and 65 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 51, 55, 58 and 64, prior art fails to teach singly or in combination an optically detectable security feature comprising a glass or plastic particle that incorporates at least one rare earth dopant with a security profile that comprises a ratio of emission intensities at a plurality of predetermined wavelengths and an emission lifetime at one of the plurality of predetermined wavelengths that is different than an emission lifetime at another of the plurality of predetermined wavelengths.

With respect to claim 59, prior art fails to teach singly or in combination an a method of validating an item having an optically detectable security feature that comprises at least one rare earth doped glass or plastic particle wherein the method comprises the steps of detecting emissions from the security feature at a plurality of predetermined wavelengths, ascertaining a ratio of intensities of emissions at the plurality of predetermined wavelengths and emission lifetimes at each of the plurality of predetermined wavelengths and comparing the ascertained ratio of intensities of emissions and the emission lifetimes with a security profile that comprises relative emission intensities at the plurality of predetermined wavelengths and emission lifetimes at each of the plurality of predetermined wavelengths.
